

# METROPLUS GOLD FORMULARY 2020.

OUR HEALTH PLAN FOR NEW YORK CITY EMPLOYEES

# **MetroPlus Health Plan**

## **2020 Gold Formulary**

### **(Prescription Drug Guide)**

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION  
ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on May 1. For more recent information or other questions, please contact MetroPlus Health Plan Member Services, at 1-877-475-3795 (TTY: 711), 8am-8pm, Monday-Saturday, or visit [www.metroplus.org](http://www.metroplus.org).

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

This document includes list of the drugs for our plan. For an updated formulary, please contact us.

You must use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2021, and from time to time during the year.

#### **What is the MetroPlus Health Plan Formulary?**

A formulary is a list of covered drugs selected by MetroPlus Health Plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. MetroPlus Health Plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a MetroPlus network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Certificate of Coverage.

#### **Can the Formulary change?**

Generally, if you are taking a drug on our formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued

access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. To get updated information about the drugs covered by MetroPlus Health Plan, please contact us. Our contact information appears on the front and back cover pages.

## **How do I use the Formulary?**

There are two ways to find your drug within the formulary:

### **Medical Condition**

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular". If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

### **Alphabetical Listing**

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 110. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## **MetroPlus Gold Formulary**

The formulary that begins on the next page provides coverage information about the drugs covered by MetroPlus Health Plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 110.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., DURAMORPH)) and generic drugs are listed in lower-case italics (e.g., *endocet*).

The information in the Requirements/Limits column tells you if MetroPlus Health Plan has any special requirements for coverage of your drug.

- **PA:** MetroPlus requires your physician to get prior authorization for certain drugs. This means you will need to get approval from MetroPlus before you fill your prescriptions. If you don't get approval, MetroPlus may not cover the drug.
- **ST:** In some cases, MetroPlus requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, MetroPlus may not cover Drug B unless you try Drug A first. If Drug A does not work for you, MetroPlus will then cover Drug B.
- **PA\*\*:** If you do not go through the step therapy process, prior authorization is required for this drug.
- **QL:** For certain drugs, MetroPlus limits the amount of the drug that MetroPlus will cover. For example, MetroPlus provides one unit per day per prescription for pantoprazole. This may be in addition to a standard one month or three month supply.
- **OTC:** This drug is not available over the counter.
